## Caorunn Gin

# CAORUNN

{ka-roon}

SMALL BATCH SCOTTISH GIN

Designed by [Navyblue](#) | Country: United Kingdom

"Influenced by the Scottish Art Nouveau movement, the unique five-sided base of the beautifully handcrafted Caorunn bottle and the symbolic asterisk represent the five Celtic botanicals.

"We're extremely excited to be launching Caorunn this summer, a truly Scottish Gin, the only one which is made at a working malt whisky distillery," said Ily Bakos, Brand Manager. "The perfectly balanced recipe of eleven hand-picked botanicals - including the infusion of five Celtic botanicals - ensures its naturally balanced flavor that works perfectly in cocktails. We're confident it will attract the attention of bar tenders and mixologists alike."
